

ACTIVITY REPORT

JUNE

2023

#give hope

Total number of animals helped:

approx 800 dogs and cats

Around 80% of total funds sent to Ukrainians in June month were used to rescue animals from flooded zone either by locals, or from people who travelled from other regions from Ukraine to help after the dam was destroyed in a military operation in Kherson.

In addition to continue to send money in Ukraine, ROLDA collected 10 dogs at the border and transported them safely into our shelters. The dogs belong to Lida from Korosten which received 1300 kg quality food for the animals in her care.

Lida from Korosten

Locations
