

Activity Report

Ukraine 2023

Two years after the war in Ukraine began, ROLDA continues to help the local rescuers who chose not to flee, those who chose to stay and defend their country and protect the animals they love.

Ukraine is a country devastated by war, the people there face the cold, bombings, destruction and death. With parts of Ukraine transformed into ruins, it will take years for the country to recover, even after the war is over.

In the months to come, ROLDA will continue to support the animals and animal welfare organisations of Ukraine who have been impacted by the war, even if the international interest on this subject has dramatically reduced.

2023 in numbers

Helped approx 11000 dogs and cats

Helped Peaceful Heaven of Kharkiv distribute thousands of meals to people and animals

Locations where ROLDA helped

When the war began, ROLDA had zero contacts in Ukraine, so our team started to reach various people and create connections; getting feedback, learning how to avoid scammers, and being very careful to document the support we provided. Using Google translate, we have been able to communicate as well as can be, given the circumstances.

We are proud to say that many of the contacts we started to support in early 2022 still get regular grants from ROLDA, some of them have even sent us diplomas in recognition of our efforts.

Testimonials and awards from Ukrainians

ROLDA continues to help people and animals in war-torn Ukraine. We've received some heart-warming and encouraging words from a number of our beneficiaries:

“

"Thank you so much for your financial support for our animals! I was very touched. Honestly, I cried because this amount was enough to buy hay for our shelter. Now I can pay for it in full and I think it will be enough for delivery!"

LUDMILA FROM BORODYANKA

"The community in Korosten is grateful to ROLDA. Thanks to you, we managed to sterilize 110 cats. ROLDA is an amazing charity."

Lida from Korosten

"I am infinitely grateful to you, Dana, for your help. Thank you for always remembering and considering me. I believe deep down in my heart that you will never leave me. I pray for this every day. After all, the fate of our dogs depends on you. You are such a kind person, and so you will never turn your back on poor animals in need. This is very important for me. I hope that people will continue to help and support ROLDA, so that you can continue to help us here in Ukraine. I pray for this every day. May God keep and protect you. I pray for your well-being. Everyday."

Irina from Kherson

"My dear, God bless you for your help! Now I get just a few donations coming and the costs are high because of the sick and the disabled animals, on top of all of the other animals – around 200 in total to look after every day! Today I bought food for all from your donations. If it wasn't for you and ROLDA, the dogs would have been hungry. Dana, thank you very much!"

Claire from Poltava

"I am very touched by your care and trust in my work. It used to be very difficult for me, and sometimes it seemed I was alone in this world. People did not understand me, insulted me and looked at me as if I was sick. When the war began, it became even more difficult. But good people learned about my animals and me and began helping us. On the one hand, accepting such large amounts of help is probably not modest. Still, on the other hand, this is even more responsibility and an opportunity to improve the life of the shelter, accept other animals, and buy them everything they need and of the best quality. I also dream of returning to my hometown, buying a place for all the cats, and finding responsible families for them! Therefore, you have every right to ask me for reports and checks. I will provide everything with gratitude."

Elena from Kherson

"The people of Mykolaiv are full of gratitude to ROLDA for the fact that you are people with good souls and help us in Ukraine during such a difficult time, as the war continues. You are true angels! I believe that God sends animals along the path to us to see what kind of people we are, and what kind souls we have. Animals are our test as humanity. And you at ROLDA are people with strong characters, who never leave us behind, but help us to save animals. I am so grateful to you, from the bottom of my heart. Thank you to you, Dana, your organization and your whole team"

Olena from Mykolaiv

Remarkable recoveries

Kuzya was found on December 29, 2022 in Kamyshevakhi, near Zaporozhye, an area under constant shelling. His face tells his story: I survived the Ukrainian war.

Kuzya is old, with multiple health issues including severe mange. All of his fur was full of wounds from scratching and his skin was red raw.

People found him crying in a barn. His loud cries for help guiding the rescuers to him. He was exhausted, couldn't even stand, hungry, with one eye completely damaged and the other barely functional.

Kuzya was hospitalized for weeks, needed treatment and a special diet, but he recovered and that's only because of your support!

Ryzhik was saved by Olena in Mykolaiv, she was seriously injured: both hind legs were completely damaged; one had an open fracture and the bones were piercing the skin, and an X-ray showed that all the toes were broken in the other. She needed complicated and expensive surgeries to help her walk again, and had a long road to recovery.

The fact Ryzhik is alive today and pain free is because of you, we couldn't be more grateful!

Good news

Don't you love a rescue story with a happy ending?!

This gorgeous cat was found by Irina, our fellow rescuer in Ukraine. He was fighting for his life in a well of water, drenched, exhausted and hopeless.

We don't know how long he had been there, fighting for survival, but it must have been an incredibly frightening time for him.

Today, he is living in his new home with his forever family – warm, loved and content.

A just 7 months old, Nika's owner passed away in the apartment he shared with her. For more than 2 weeks, Nika was trapped inside the apartment – with no food and no water, next to the body of the owner she loved.

Nika was found severely emaciated. We are very happy to report that Nika has fully recovered and is now perfectly healthy, playful and ready for a fresh new start!

Thank you for funding Nika's treatment and rehabilitation and offering her a second chance at life!

At 10 years old, a dog is already in its senior years. So, imagine how much 10-year-old Alpha, was suffering whilst trying to survive on an industrial plant.

Her eye were severely damaged due to the bitter cold and she was malnourished. Rescue volunteers found her and took immediate action to get her the veterinary care she urgently needed.

She has now had surgery on her eye and is adjusting to her new life in our shelter.

She is safe, warm, fed and well cared – a far cry from the homeless dog she once was.

May you live out your senior years in comfort and peace, beautiful Alpha!

Chapa was rescued at the beginning of this year by our friends in Ukraine. He was in a terrible state, dirty, very skinny, his fur matted and full of knots and he seemed to have no reason to live.

Look at him now! This is what love and good care do! He looks completely different and his life is about to change. He came to our shelter in June and we are about to start looking for the perfect family for this young and beautiful boy!
