# ROLDA CEO VISIT TO OLENA IN MYKOLAIIV

"As part of ROLDA's support for #UkraineAnimals, we provide ongoing grants to rescuers and organizations who we partner with. We have supported Olena and learned about Leo, a tomcat, and Lucky, who is a special dog, both of whom we've sent money for in the past. It was moving in an incredible way to finally see and interact with them. Lucky was left paralyzed after being hit by a car. Leo, the rescued tomcat, is recovering after almost losing his life. was thrilled when Olena suggested I could walk Lucky. "

"It was heartwarming to see how happy he was. Despite the hot day making him tired, he kept moving with his cart, only pausing briefly for a hug.

Leaving the center and saying goodbye to Lucky was bittersweet. Olena and her team graciously showed me around their town, or what remained of it. Rockets damaged many buildings, affecting not just structures but families and lives. In the central plaza, the Ukrainian people displayed captured Russian tanks and vehicles to lift their spirits. Despite warnings about floating mines, people continued their lives by the river, at the beach, and in the water."
